Shirokuma develops for the next version of GigaStudio

The organ sample collection will be further enhanced for the new features

Budapest, Hungary, September 1, 2003 – Shirokuma Ltd. made a developer's agreement with American sound processing software vendor Tascam. According to the agreement, Shirokuma will be an early tester of the next version of GigaStudio (v3.0) and will develop and enhance its product *Notre Dame de Budapest Pipe Organ Samples* collection to fully use the capabilities of the new version. While the sample collection will keep all the functions as the currently shipping version for GigaStudio v2.0, the latest version of the sampler software will allow offering even more features and to reproduce the sounds of the pipe organ as realistic as never before.

Shirokuma Ltd. will provide Tascam with certain demonstration samples that the American software vendor will use to promote the coming new version of the software.

About Shirokuma

Shirokuma Ltd was founded in 2001 with the goal of providing real, accountable quality within the IT industry. The privately held company specializes on IT consulting and support, custom development and various kinds of IT- and language-related services, including professional translation and localization.

About NDB

According to what organists and organ experts say, *Notre Dame de Budapest Pipe Organ Samples* is the ultimate pipe organ sampling DVD – the only sample collection, which really contains all important stop combinations of a symphonic organ together with the the natural reverb of the cathedrals. Also, for the first time in the world, the collection offers real swellbox, crescendo and tremolo effects – just like a real pipe organ. More information: <http://www.orgona.org>.

About Tascam

TASCAM, the company that invented the home studio revolution, is one of four divisions of TEAC Corporation that is dedicated to making innovative products for capturing creativity in the field of music and audio. More information about the company can be found at <http://www.tascam.com>.
